Not for Tourists 2001

A sleek-looking pocket-sized black book of maps, charts, listings and commentary that's apparently too sleek-looking for out-of-towners (but certainly useful for them), this user's guide to Manhattan covers the borough by neighborhood (even, thankfully, the ones above 110th Street) and points out such useful information as the locations of movie theaters, video-rental places, ATMs and liquor stores.

Happy Mazza Media, \$26.95; available at bookstores or from www.notfortourists.com.
